

Panel Assemblies

We have the facilities and expertise to design and manufacture control panels of the type shown in the illustrations below. Our range is extensive and includes all types of instrumentation with the corresponding pipe-work, valves, manifolds and electric wiring. A wide variety of enclosures and sun-shades are also available.

All are manufactured and tested under our strict quality control procedures approved under ISO 9001.2008 and have been used by major oil companies and pump manufacturers on important offshore projects.

We would welcome the opportunity to submit a quotation for your requirements.

We manufacture a wide range of instruments to customer's special requirements
We shall be pleased to discuss and advise on your specifications.

Specifications and dimensions given in this leaflet represent the state of engineering at the time of printing.
Engineering modifications may take place without prior notice.
